DRI's Trucking Law Committee

What You Will Learn

- How to respond to the "plaintiffs' playbook" in trucking cases
- How to develop supportive evidence from a plaintiff's vehicle
- How to address reptile theory attacks practically and before discovery
- How to attack a plaintiff's damages

Register online now at dri.org or complete the form in the back.

Plaintiff's Vehicle "Experience!"

Walk through a live, interactive plaintiff automobile technology "experience." The exhibit will showcase modern vehicles, which a plaintiff might operate, and provide you with the details of the technology onboard these vehicles and the specific kinds and locations of certain data. This will allow you, in defending trucking companies, to obtain data from plaintiff vehicles quickly, which goes well beyond the typical "black box" data. This experience is a do-not-miss for clients and attorneys alike!

BREAKOUTS

Thursday, 2:30 p.m.–5:00 p.m. (choose one)

In May 2017, the DRI Trucking Law Committee presented a one-day seminar on how to litigate a case in a reptile environment. The seminar provided practical and hands-on techniques on how to address discovery, depositions, motions, and trials in reptile cases. In the 2018 Liability breakout, discover more real-life techniques to shut down a reptile case and turn the table on plaintiffs. Plaintiff lawyers not only try to control the liability portion of a case, but their clients’ damages and medical treatment. In the 2018 Damages breakout, explore strategies and techniques to challenge a plaintiff’s medical treatment and the records that “support” it.
